

## Term Art and Drawing Classes at Sams Art House

### *Creative Art Class*

At Sams Art House it's all about the process of creating which will ultimately let kids enrolled in our awesome art classes connect with their own personal creativity. Children will learn to use a range of mediums and new art techniques. We provide the idea/theme each week, a 'base' for the kids to work with and a range of materials to use which helps kids create their own amazing art. We encourage exploration of ideas and themes our tutors provide, which often takes kids in very different directions in a single class. Morning/afternoon tea provided.

### *Drawing Class*

These classes are for kids who just want to learn to draw! Kids will learn basic skills and techniques, with direction each week from an experienced tutor, enabling them to draw anything and everything. All students will be given a sketch book per term to continue their drawing practice.

We have a more advanced drawing class for kids who are serious about learning the aspects of drawing and building a skill base for more advanced drawing techniques.

***Prerequisite*** – *Age and either of our other drawing classes with students showing the skills and enthusiasm to pursue drawing seriously.*
